WHY INDUSTRIAL WOODWORKING & PANEL PROCESSING WILL WORK FOR YOU!

Industrial Woodworking & Panel Processing is aimed at the woodworking trade supply sector incorporating those specializing in panel production.

Industrial Woodworking & Panel Processing acts as a mouthpiece for both the joinery manufacturing trade and panel processors.

Industrial Woodworking & Panel Processing is published 12 times a year and has an excellent reputation for providing the very best advertising opportunities. Every reader is sourced by using the latest data base information to ensure that those who receive each title have a specialist interest in the particular sector.

Industrial Woodworking & Panel Processing brings you up-to-date minute news covering the whole of Europe as well as the UK. Constantly reflecting the latest industry trends, **Industrial Woodworking & Panel Processing** contains a wealth of information. Dealing also with the top public relations companies in the woodworking trade sector, we can bring you all the latest news on a regular basis.

The specialist typesetting office is headed by Cheryl Woods, providing expert knowledge of how to present our news content in an eye-catching design.

Industrial Woodworking & Panel Processing is published in A3 format and advertisers can be assured that their products and services will be showcased to the right people – those whose task it is to source the correct machinery and equipment for the job!

Industrial Woodworking & Panel Processing is quite simply the best there is in the market for those involved in the woodworking trade sector!

It makes sense to advertise with us – because **Industrial Woodworking & Panel Processing** will work for you!
